# WHAT'S YOUR AMBITION?

## GEMMOLOGIST

ZIYOU FAN, CHINA

BSc (Hons) Gemmology and Jewellery Studies

"I wanted to study at Birmingham City University because I loved the sound of Birmingham's rich history in jewellery.

"The facilities in the Assay Office are so professional, and it's great to work with the stones. We identify them, distinguish between the real ones and the imitations, and learn all about their individual properties."
